

**Mini Track. Reinforcement bracket for
direct recessed and recessed flush
mounting**

code LT9112/01

**PRODUCT DESCRIPTION**

The Mini Track track is an electrified Class III-SELV track with two circuits: one for a low voltage 24/48V power supply and the other for the DATA BUS (DALI or 1-10V). The power supply voltage can be 24V or 48V, not exceeding 15°, depending on the models of lighting fixtures chosen. White and black finishes are available in the ceiling and suspended versions, while only the black finishing for the recessed option. The lighting fixtures can be used on both 24V or 48V electrified tracks, except the microfile family that requires only 24V. DALI dimmable spotlights are equipped with non-polarized converters that allow to be installed in any direction, and Hot Plug technology for safe insertion with live track.

PRODUCT SPECS

Finishing	White
Dimension	mm

WEB PAGE**ASSEMBLY
INSTRUCTIONS**

Complies with EN605981 and related notes. In the absence of metric symbols, the measurements are all in millimeters.
Luminous flux and power data are initially subject to tolerances +/- 10%. The values refer to an ambient temperature of 25 °C unless otherwise specified.
We reserve the right to make changes to our products at any time.
